

# RENOVATING? DON'T KNOW WHERE TO START?

*Add a Sunroom, update the Exterior*

*after*

**R**enovations of Excellence together with Mr. & Mrs. Hupka in Riverbend redesigned an existing cramped nook-kitchen-dining room into a modern entertaining delight. Karen Smith with the Kitchen Craft Connection helped to hi-lite the existing space and create a new gourmet kitchen. "Closed in walls, dark hemlock railings," were transformed into open columns and arches. The dining room now is bigger, brighter and flows through with more columns. The walls and ceilings were freshened up. New trims, doors and archways were added. A beautiful laminate floor was installed, new top of the line appliances, granite counter tops and you have a piece de resistance.
